

# Precision-by-Difference Network: Temporal Coordination Framework

## S-Entropy Navigation via $\Delta P = T_{ref} - t_{local}$

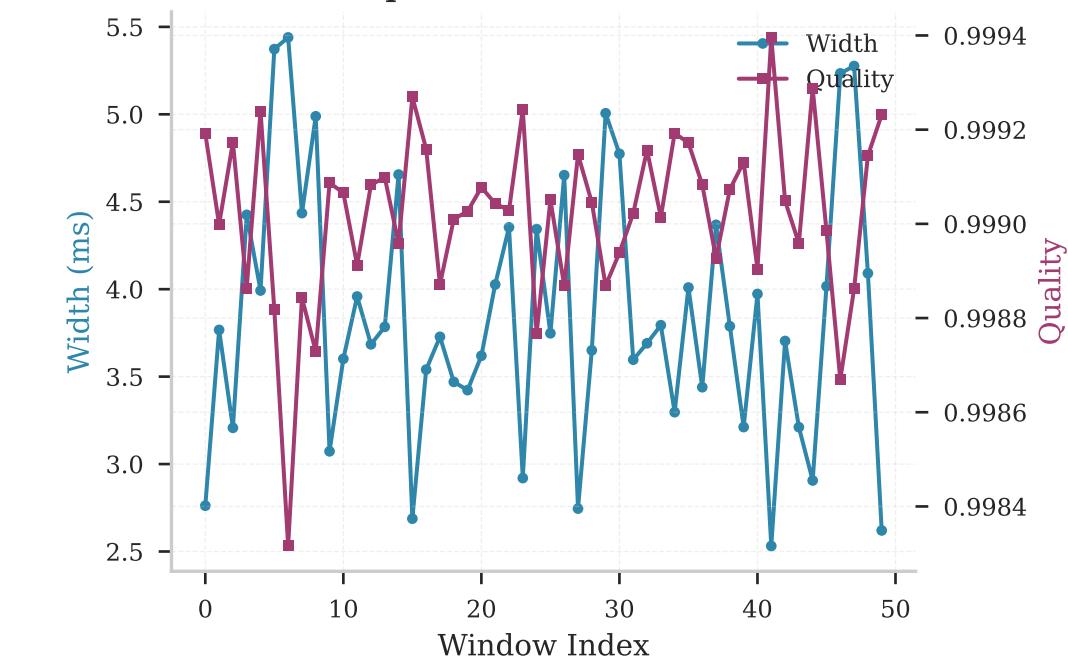

**A. Precision-by-Difference Distribution**

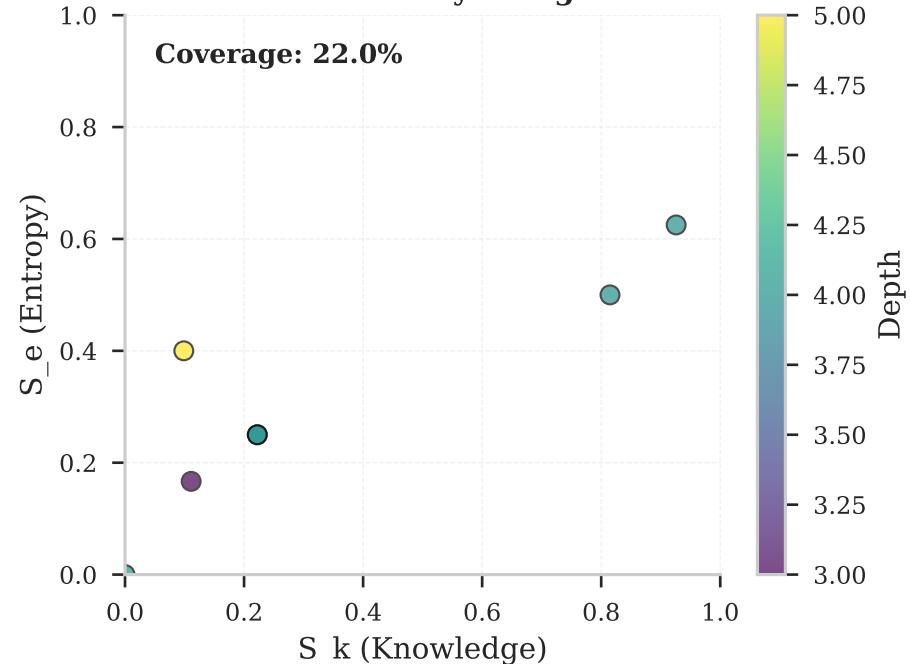

**B. Hierarchy Branch Selection**

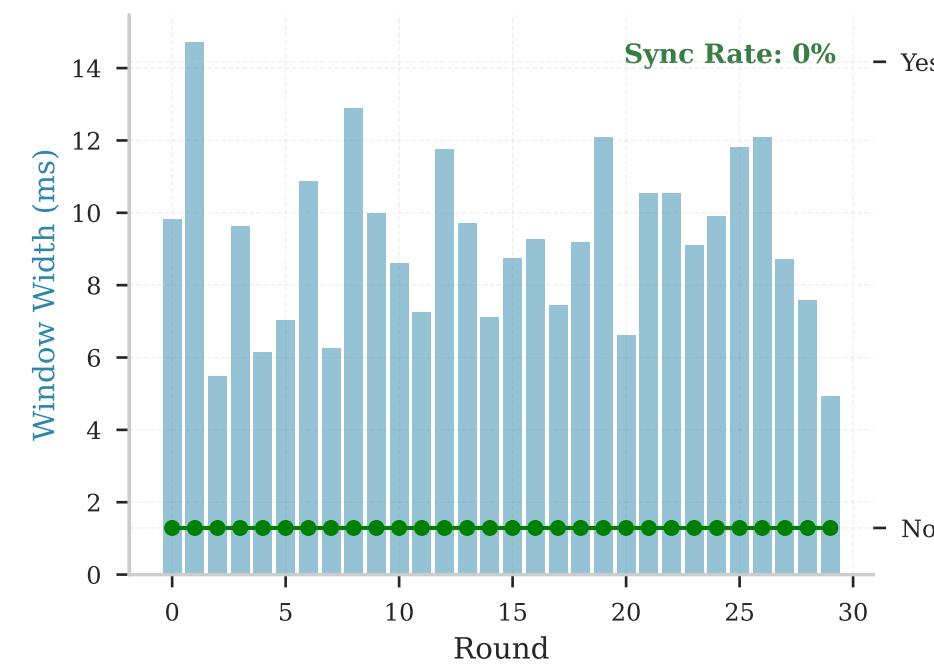

**C. Temporal Coherence Windows**

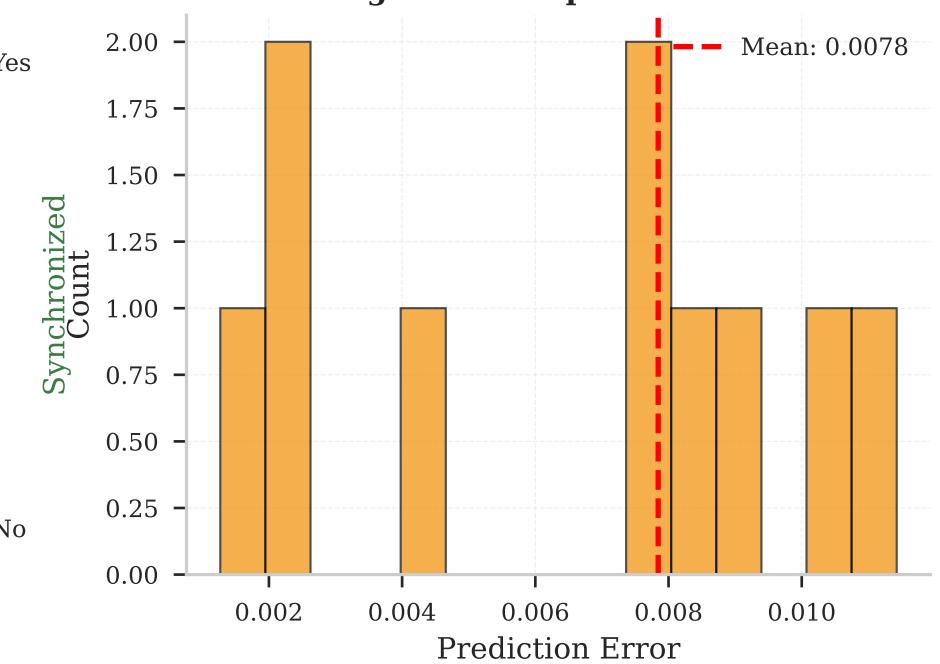

**D.  $3^k$  Hierarchy Navigation**

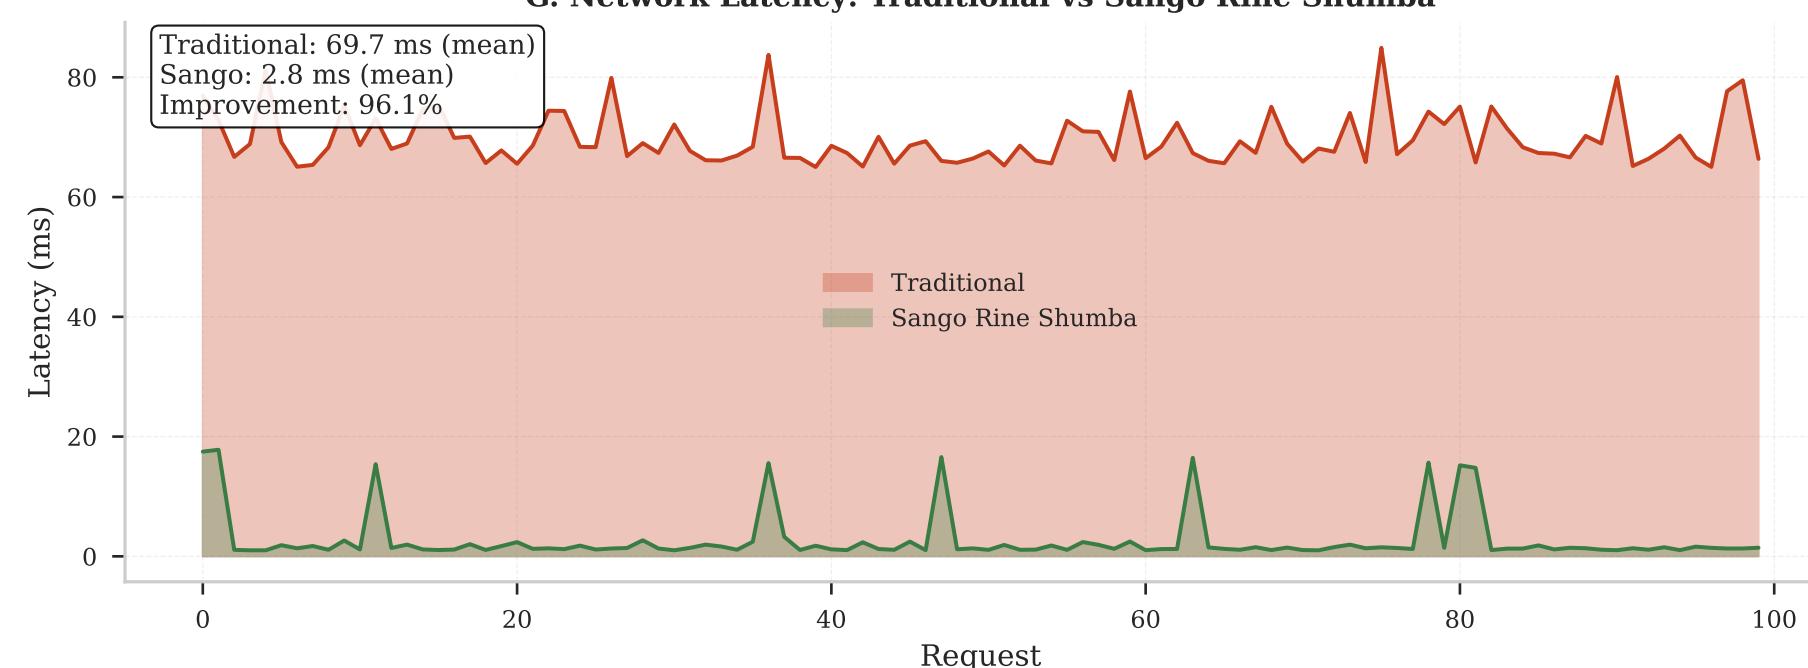

**E. Collective State Coordination**

**F. Categorical Completion Prediction**

**G. Network Latency: Traditional vs Sango Rine Shumba**

**H. Framework Performance**
