

# Cross-Sectional Validation of S-Transformation in Current Flow

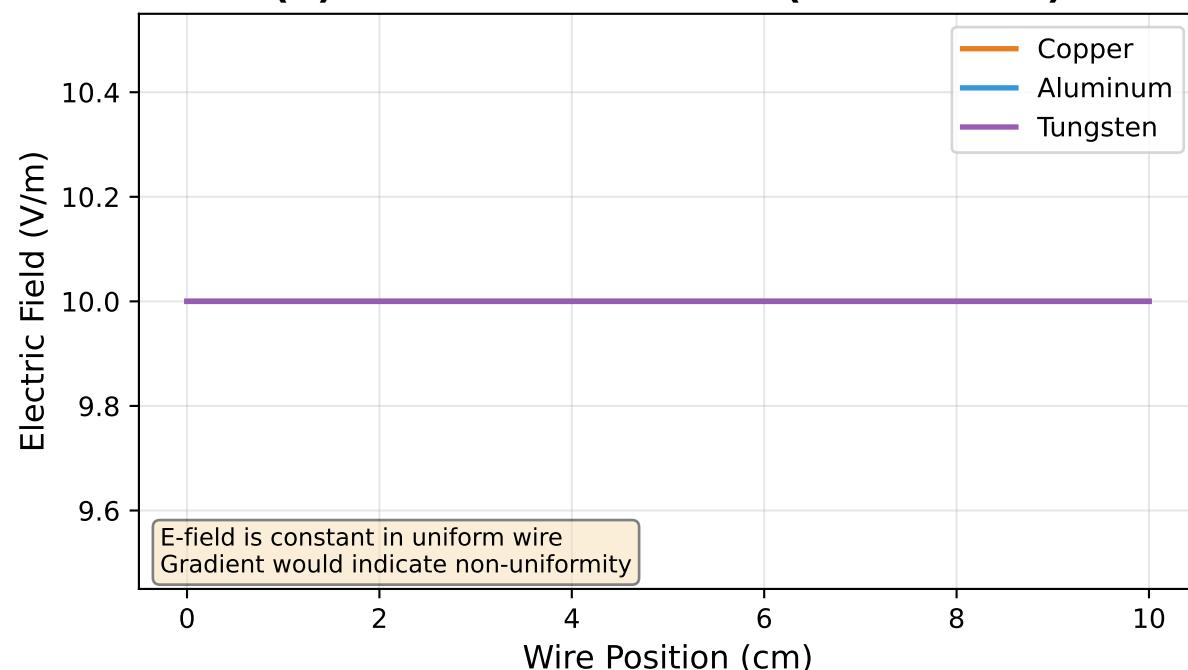

**(A) S-Coordinate Evolution Along Wire**

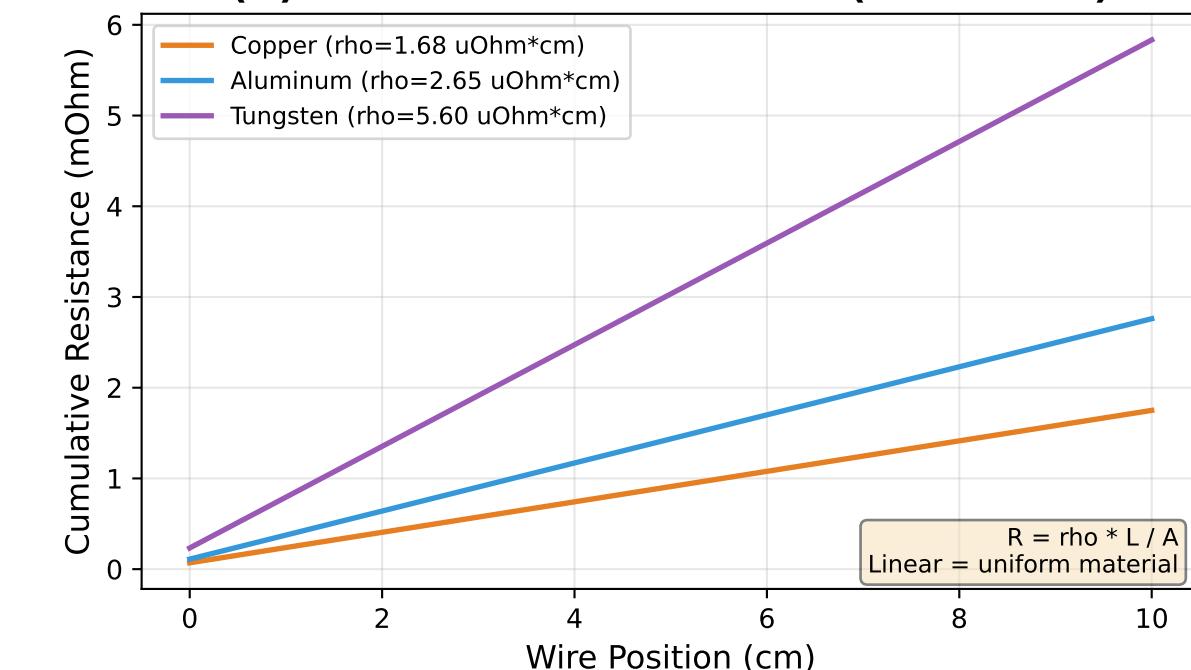

**(B) Transformation Validation**

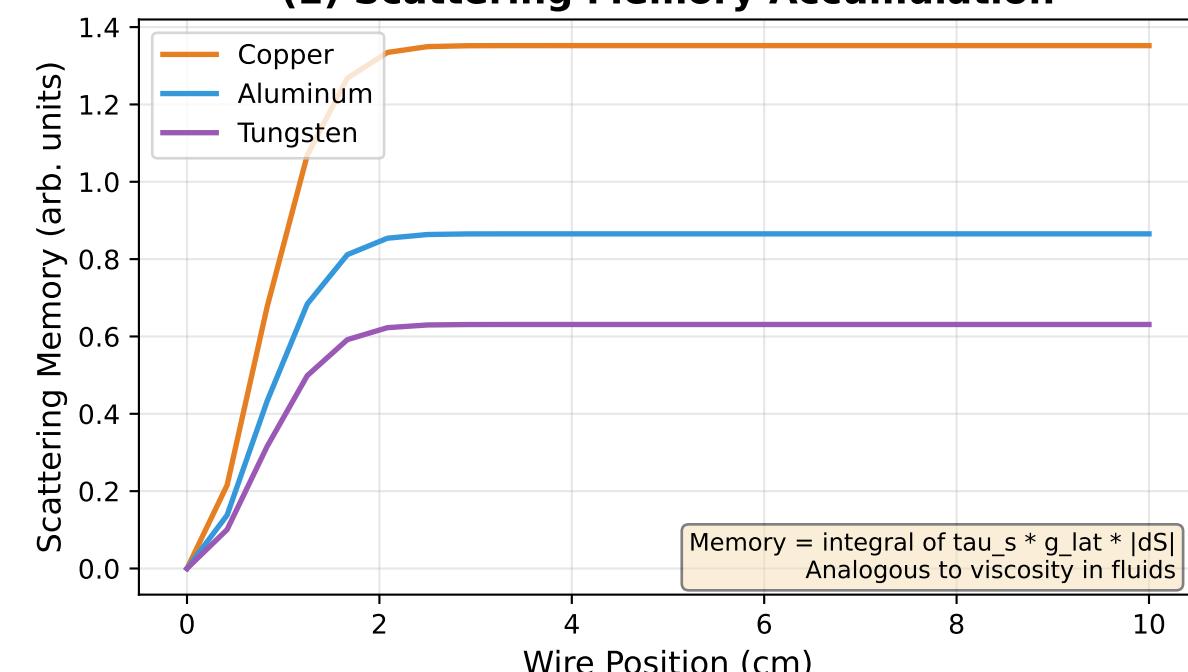

**(C) Electric Field Profile (Measurable)**

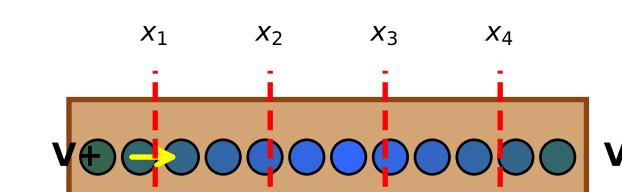

**(D) Resistance Accumulation (Ohm's Law)**

**(E) Scattering Memory Accumulation**

**(F) Newton's Cradle Model of Current**

Electron pushes electron: Newton's cradle

Cross-sections measure S-coordinates at each position

$$\vec{S}(x_{i+1}) = \mathcal{T}_{dx}[\vec{S}(x_i)]$$
